Shriners Hospitals for Children is one of the largest pediatric sub-specialty health care systems in the world. We are dedicated to improving the lives of children by providing pediatric specialty care, innovative research, and outstanding teaching programs for medical professionals. Children up to age 18 with orthopedic conditions, burns, spinal cord injuries, and cleft lip and palate are eligible for care and receive all services in a family-centered environment.

Shriners Hospitals for Children is now part of most major insurance networks. **We treat any child regardless of the family's ability to pay.**
