Leaving a legacy to a mission you believe in is one of the most significant gestures you will ever make.

Dream Makers Legacy Society
When you think of leaving your philanthropic legacy, you search for a cause that is dear to your heart, where you know you can truly make a difference and where your ultimate gift will be maintained and multiplied through sound management practices.

Recognition
Dream Makers Legacy Society members are recognized at two different levels. Upon receipt of a copy of a will or other documentation, donors who have established a gift of $250,000 and above will receive a handsome Shriners Hospital Dream Makers Legacy Society book in wood or brass. Donors who make a contribution under $250,000 will receive a Shriners Hospitals Dream Makers Legacy Society certificate.

Honoring those who name the Spokane Shriners Hospital

Shriners Hospitals for Children Dream Makers Legacy Society allows us to recognize our generous donors who name Shriners Hospitals - at the time this important decision is made. Then, when the legacy is received, it is our honor to hold a ceremony or presentation for surviving family and friends.

Leaving a lasting impact
As a member of Shriners Hospitals Dream Makers Legacy Society, donors also receive our Leaders in Care publication. This quarterly newsletter contains stories about research breakthroughs and success stories about the many children whose lives are impacted by the generosity of our donors and the expert medical care they receive at Shriners Hospitals for Children — Spokane. Leaders in Care is a great reminder of the lasting impact of how your legacy changes the lives of children.

Meet Jessica: Jessica was born with cerebral palsy. Dana and her husband knew that Jessica was going to need surgery on her left leg. Running and riding a bicycle were difficult; she tripped often and fell off her bike frequently. Jessica loves to run and ride her bike and wanted more than anything to be able to walk like other kids.

Jessica was 10 years old when she had surgery. “She was willing to go through surgery because she knew what the long term benefit would be,” Dana said. “We had a wonderful experience at the hospital with all staff. They were always there, always helpful, loving her through it.”

Even though there will be more surgeries, Jessica has already made great strides. In fact, she improved enough to participate recently in a 7.5 mile fun run and enjoyed every minute of it!

Shriners Hospitals for Children — Spokane
Director of Development
(509) 209-3188

Shriners Hospitals for Children is changing lives every day through innovative pediatric specialty care, world-class research and outstanding medical education. Our 22 facilities, located in the United States, Canada and Mexico, provide advanced care for children with orthopaedic conditions, burns, spinal cord injuries, and cleft lip and palate.

As a 501(c)(3) non-profit organization, we rely on the generous donations of Shriners, corporations and the general public to carry out our mission and change the lives of children every day. To learn more about us visit shrinershospitalsforchildren.org
